About the role

As part of a team, you would be responsible for providing senior technical leadership and expertise as well as ensuring the high level coordination, analysis and integration of technical solutions required for delivery of projects. This position will expose you to leading edge technologies and expand your skills significantly. If you are a team player, collaborative and thrive in a fast-paced environment, this position is for you. You will be part of a comprehensive IT organization which includes Architecture, Design Development and Support that will leverage your findings in building better solutions to the members and the House of Commons Administration.

Top reasons to join the team

Attention all tech enthusiasts!

Are you passionate about information technology and love to keep up with the latest innovations? If so, we have an exciting job opportunity that you won't want to miss. As a member of our team, you will work in a fast-paced and dynamic environment where your skills and expertise will be challenged daily. You will have the opportunity to implement new ideas and improve existing technology, making a real impact in the domain of Digital Workplace. Our products are used by Members of Parliament, their staff, and all of the employees of the House of Commons. By joining our team, you will have the opportunity to deliver and support tailored products and services to our clients, aiming to enhance their experience and productivity. We are seeking a creative and resourceful individual who can work well under pressure and is not afraid to think outside the box. With access to the latest technology and tools, you will have the resources necessary to make a real difference in the industry. If you're ready for a challenging and rewarding career in the technology field, then this is the perfect job for you. Apply today and become part of our exciting team!
